

AGI FRAMING

NOT TOO BIG. NOT TOO SMALL.

Some subcontractors are just too big. They swamp you with a sea of paperwork and red tape just to get projects started. Some companies are just too small. You waste time and money with these companies because it's one guy, a truck and a cell phone doing everything from scheduling to invoicing to building. You find yourself chasing after that one guy at every turn to try to keep your project moving.

AGI Construction, Inc. is just right.

Our builder clients have raved that AGI Construction, Inc. is the perfect mix of administrative and building professionals. We are always available when it counts the most.

AGI SIDING

**AGI CONSTRUCTION, INC.
THE COMPLETE PACKAGE**
